

ICEC27-ICMC 2018 Sep 3-7, 2018

ICMC Awards

ICMC Lifetime Achievement Award

“To recognize a lifetime’s achievement in advancing the knowledge of cryogenic materials”

The award consists of a certificate, a \$2,500 honorarium, a plaque (designed by the Awards Committee), up to \$2,500 to cover personal travel expenses to accept the award, and free registration for this year’s conference and two subsequent ICMC conferences.

Nominations may be made by all experts in the field. The nomination will consist of a (two to three page) letter addressed to the Awards Committee Chairman and contain a thorough description of the candidate’s achievements in the field of cryogenic materials. A CV and a publication list of the candidate should be attached.

Three nomination letters will be needed to qualify for the selection procedure. The candidate must either still be active in the field or have recently retired.

The ‘lead’ nomination letter should address in detail;

- the quality of his / her research,
- the innovation of his / her research,
- the international recognition gained for his / her work,
- the worldwide reputation of the candidate, and
- the candidate’s impact on the field.

Two additional nomination letters should clearly show a familiarity with the candidate’s work and achievements.

The deadline for nominations is May 31st 2018, three months before the opening of the conference.

Please submit nominations, preferably by e-mail, to the ICMC Awards Committee Chairman:

Cryogenic Materials Award for Excellence

This award is intended for a person under the age of 40 at the date of the conference, ***to recognize his or her excellence in advancing the knowledge of cryogenic materials over recent years.***

The Award consists of a certificate signed by the ICMC Chair, a check for \$ 1,500, an invitation to the award winner (and his/her partner) of the ICMC conference (travel expenses and accommodation, up to \$1,000), and waived conference fee for the Oxford 2018 conference.

The successful nominee must be present to receive the award and make to make a presentation at the conference. Nominations may be made by anyone with expertise in the candidate's field of work. The candidate must necessarily be active in the field.

Three nomination letters will be needed to qualify for the selection procedure. The lead nomination letter will address in detail:

- The quality of the candidate's research performed over the past years with emphasis on recent work;
- The innovation of the candidate's research over recent years;
- The international recognition gained for the candidate's work over recent years;
- The candidate's impact on the field over recent years.
- Specific indicators of excellence and suitability for the award include, but are not limited to;
- The first time application of a new experimental or theoretical technique;
- Demonstration of key fundamental insight that impacts multiple levels of material use;
- Construction of a new and unique installation or measurement facility;
- Synthesis or fabrication of a new material, or development of a new synthesis or fabrication process;
- Sustained publication of high quality, well-cited papers in technical or scientific journals.

Two additional nomination letters should clearly show a familiarity with the candidate's work and achievements.

The deadline for nominations is May 31st 2018, three months before the opening of the conference.

Please submit nominations, preferably by e-mail, to the ICMC Awards Committee Chairman:
